

## ULR Series

**Ambient Temperature Range: -30°C ~ 170°C**

**ULR Series** provides fast response due to the shape of its sensing surface.

Its specially-designed mounting structure makes it an excellent temperature-sensor for dehumidifier, refrigerator, and air conditioner.

### Applications

- Dehumanize
- Air conditioner

### Features

- Epoxy Molded
- Hermetic Surface
- Easy Mounting to Pipe
- Lead Wire and Bracket Available

### Specifications

- Electrical Ratings  
15A / 125V AC  
7.5A / 250V A
- Operating Temperature Range  
-20°C ~ 170°C
- Life Cycles  
100,000 Cycle
